The LinkPlas-ter

VOLUME 1 ISSUE 2

APRIL / EASTER 2009

Happy Easter and Welcome to the latest edition of the LinkPlas-ter.

After an overwhelming 3 months at Linkplas I now have more of a feel for the industry and have met some great people along the way. Thanks to all those I have met so far for making this journey very enjoyable. I look forward to continuing to meet more of you throughout the year.

On the 17th of February we hosted the first of this years North Harbour Business Association networking meetings and met some very interest-

ing people. Thanks to those who attended.

LinkPlas have also signed up to be sponsors and mentors for the Young Enterprise Scheme (YES) and are really honoured and thrilled to be a part of this challenging and creative initiative.

We hope you enjoy this issue of the LinkPlas-ter

Regards

Deryn French

If you do not wish to receive any more issues of the LinkPlas-ter please email deryn@linkplas.com

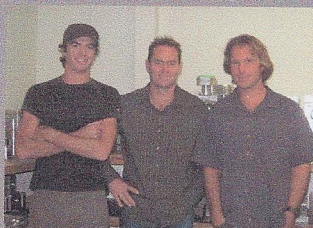

YES we can ...

... like Bob the Builder is a phrase/ motto/ attitude that LinkPlas lives by. We are not afraid of a challenge and like to get creative and innovative whenever we can. Our PETTLE wine bottle (<http://www.linkplas.com/product/pettle.htm>) is the biggest testament to this.

So when approached by Enterprise North Shore to sponsor and mentor for the Young Enterprise Scheme (YES) LinkPlas jumped at the opportunity. "We are really eager to see what NZ's talented youth come up with"

- Steve Morrison

LinkPlas Mentors: Nick Miller, Steve Morrison & Nick Tienstra

... show you around

On February 17 2009 LinkPlas were given the pleasure of hosting North Harbour Business Associations first After 5 function for 2009. With a good turn out of guests it was an enjoyable and informative event.

The evening kicked off with Steve Morrison going over a few of our P.E.T. plastic bottle achievements such as our PETTLE wine bottle, Waiwera Water bottle, Pinto Sejuice Juice Bottle and 42 below's 420 Water bottle.

We then moved onto the LinkPlas factory tour where we got to show off our fantastic production facility and educate all attendees on how exactly it is that these bottles are made.

Thank you to the NHBA and everyone who attended we look forward to seeing you all again.

"Te Waihou" - New Water, New Bottle, New beginnings ...

New beginnings indeed as LinkPlas release the first PET bottle to the Te Waihou Reserve range of Water offerings from premium bottled water company Aquasplash. Wanting to replicate the elegant glass bottle shape that Aquasplash use LinkPlas adopted their can do attitude and came up with this (pictured right) stylish PET bottle design to fit very nicely into the Te Waihou Reserve Water portfolio.

Te Waihou meaning "The New Water" is pure fresh water sourced in the heartland of New Zealand in Putaruru from the Blue spring originating from the Mamaku ranges. It is carefully protected every step of the way

including being bottled in a brand new state of the art purpose built bottling facility in Putaruru.
